

## From the south via the M1

Travel north past the Leicester Forest East services and leave the M1 at Junction 21A (A46).

After approx 6 miles leave A46 for A6 (signposted Loughborough).

After approx 6 more miles take the 2nd sign for Barrow – this entails leaving the A6 via a slip road to the left and then crossing back over the A6 via two traffic islands and an intervening bridge.

After the second island there is a traffic light controlled bridge over the river from which the road rises uphill to a more substantial traffic island (with a 'monument' in the middle). Turn left – this is the High Street.

Pass shops both left and right. The first road on the left is Cotes Road – you will see the Three Crowns pub on the far corner. There is a free public car park immediately after the pub sign and this is where I suggest you park. There are 2 other free car parks in the village – both further back down the High Street – one near to the 'monument' traffic island, the second behind the Somerfield supermarket.

Our building is on the other corner of Cotes Road – from the car park cross Cotes Road and the entrance is on the High Street (opposite the Alliance & Leicester branch). The signage has only just been approved by the conservation people and may not be installed but the paintwork is dark blue and I'm sure you'll have no difficulty finding us.

Any problems please call on 01509 410355.
